Annexe 3 photo 4 (2018)

The main photograph shows a long, straight concrete wall under construction or recently completed. The wall is situated in a flat, sandy landscape. To the right of the wall, there is a large pile of sand and some construction equipment. In the background, a line of trees separates the construction area from a residential or developed area. The sky is bright blue with scattered white clouds. A red truck is parked on the right side of the image. An inset map in the top right corner provides a broader geographical context, showing the site's location relative to surrounding roads and land use. A yellow number '4' is placed on the map to indicate the specific location of the construction site.
